Moved the minutes of Aug 28, 2024, be adopted as circulated. Carried. 09.18.24-2339

**MANAGER'S REPORT**

- MSW is steady, the old road is almost reaching its capacity, and we will soon have to move to a new elevation.
- The Industrial cell remains busy with Shell adding another large amount to finish off.
- Training continues as we are sending 3 people for first aid and 3 more to the Basic Landfill course in November.
- The new scale project is moving forward; we now have the cement poured and found a skid trailer.
- The new D-8 is running great since eliminating the DEF system. Recently the 404 Peterbilt broke down seems to be an issue with the DEF, I am looking at getting that DEF deleted now as well.
- Recycling has been extremely busy this month especially the cardboard, we made more bales this month than ever before.
- The Eco center continues to run flawlessly with continued compliments rolling in quite often.
- Recycling in the Crowsnest continues to be terrible, we now have complaints about the mess with photos on Facebook.
- I have had several meetings with engineering groups discussing the new MSW cell expansion. I have had some exploratory hole digging to make sure there is no rock shelves.

Tony Bruder
